25X1 [] Comments.

- 25X1 (1) The shipment with elements of the 312th Gds RL Regt was observed at
 25X1 [] The train was
 25X1 presumably bound for Lieberitz. The unit is believed to have returned on
 13 September as, in the reference report, rocket launchers [] 25X1
 [] had already been loaded on 9 September. It is assumed that the
 AAA unit which also arrived in the Schuetzen Kaserne on 13 September should
 have also been on the same train with the rocket launcher unit.
- (2) Most of the motor vehicles seen in the barracks yard and in traffic from
 or to the barracks installation belong to headquarters units of the Fourth
 Gds Vozz Army. The column of sedans with officers moving out of 1 September
 probably belongs to the army headquarters of which elements are believed to
 have moved to Templin for the coming fall maneuvers.
- (3) Components of the 118th Sig Regt of the Fourth Gds Vozz Army are camped in
 the brass plant in Finow. Presumably, elements of the regiment are at
 Templin.

- 25X1 (4) [] from there for the first time and confirms elements of the 6th
 AAA Div (US) as being stationed there. It is assumed that the quarters were
 only partially occupied at the beginning of September as elements of the
 25X1 division are at troop training grounds. [] probably belong to a
 Soviet transportation office in charge of the transportation of personnel
 and freight.
